

SLIM wall washer series

Comprising of high-efficiency LEDs, the wall washers SLIM range is designed as the ideal tool for cove lighting/wall washing applications with special customized optics and sleek design. The SLIM range is available as RGB fixtures with smooth color mixing and excellent color consistency, ideal for creating soft relaxing moods with gentle tones or livening up a social scene with bolder hues. SLIM is also available as warm & cool WHITE fixtures providing detailed color temperature control with high CRI allowing the lighting design to adjust mood and light to suit the application function. Whether the need be to create warm and intimate moods with warm whites or create a corporate mood with cooler whites, SLIM allows the user to access the color temperature from 2800 up to 5600K.

SLIM s12 | SLIM s24 | SLIM s36 |

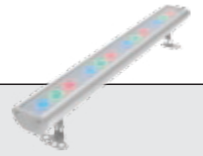

Designed with a wide range of optics, including 15 degrees, 25 x 6 degrees and 30 degrees and also available in RGB or single color.

SLIM z6-40 | SLIM z12 | SLIM z12-80 | SLIM z24 | SLIM z36 |

Designed to be super-slim and easy-to-install.
